

## BASIC-WELDING MACHINE B-ISP(V)

The welding machines of the type ISP(V), which have proven their worth in industry for decades, have been redesigned and get cost-optimized equivalents with the types B-ISP(V).

The following types of the B-ISP(V) will be available from April 2019:

<p style="text-align: center;"><b>B-ISP</b></p>  <p>                     Function: Impulse Heat Sealing 20-300°C                      Welding Seam: Width 2x6mm; Length 600, 800 or 1000mm                      Base Frame: Stainless 1.4301                      Column: Stainless 1.4301, Height up to 2m                      Machine Case: Aluminium with stainless covers                      Control Panel: Integrated in Machine Case                      Price: CHF 16'800.-                 </p>	<p style="text-align: center;"><b>B-ISP(V)</b></p>  <p>                     Function: Impulse Heat Sealing 20-300°C and Vacuum                      Welding Seam: Width 2x6mm; Length 600, 800 or 1000mm                      Base Frame: Stainless 1.4301                      Column: Stainless 1.4301, Height up to 2m                      Machine Case: Aluminium with stainless covers                      Control Panel: Stainless 1.4301                      Price: CHF 21'100.-                 </p>
<p style="text-align: center;"><b>B-ISP-EX</b></p>  <p>                     Function: Heat Sealing 20-300°C                      Welding Seam: Width 2x6mm; Length 600, 800 or 1000mm                      Base Frame: Stainless 1.4301                      Column: Stainless 1.4301, Height up to 2m                      Machine Case: Aluminium with stainless covers                      Control Panel: Stainless 1.4301                      Price for version ATEX Zone 2/22: CHF 38'900.- (pneu.)                      Price for version ATEX Zone 2/22: CHF 43'500.- (PLC)                      Price for version ATEX Zone 1/21: CHF 49'500.- (pneu.)                      Price for version ATEX Zone 1/21: CHF 61'800.- (PLC)                 </p>	<p style="text-align: center;"><b>B-ISP(V)-EX</b></p>  <p>                     Function: Heat Sealing 20-300°C and Vacuum                      Welding Seam: Width 2x6mm; Length 600, 800 or 1000mm                      Base Frame: Stainless 1.4301                      Column: Stainless 1.4301, Height up to 2m                      Machine Case: Aluminium with stainless covers                      Control Panel: Stainless 1.4301                      Price for version ATEX Zone 2/22: CHF 45'600.-                      Price for version ATEX Zone 1/21: CHF 64'900.-                 </p>
